

# Unlocking Nonprofit Potential: Standardizing Financial Reporting with INPAG

## THE CHALLENGES

10M+ organizations in the global development sector manage billions of dollars annually. Despite its size and scope, the sector is blocked by:

- An absence of standardized nonprofit financial reporting in more than 90% of countries
- Inconsistent practices across countries and organizations
- A lack of transparency and comparability

The result? Wasted time, money, and missed opportunities for global impact.

## THE SOLUTION

### International Non-Profit Accounting Guidance (INPAG)

Humentum, a global nonprofit, and CIPFA, the Chartered Institute of Public Finance and Accountancy in the UK, are leading a globally representative coalition to develop guidance that will:

#### Streamline Operations

Eliminate redundant reporting formats

#### Enhance Credibility

Improve financial report quality and assurance

#### Increase Funding

Support fundraising and grant-making due diligence

#### Improve Transparency

Clear reporting on unrestricted funds and support costs

## THE OPPORTUNITY

By supporting INPAG, you can:

- Drive efficiency in a multi-billion dollar sector
- Facilitate increased funding for critical causes
- Position your organization as a leader in nonprofit sector advancement
