FOR NON PROFIT ORGANISATIONS

International Non-profit Accounting Guidance (INPAG) Exposure Draft 3

Response template

Please use this form to record your responses to the Specific Matters for Comment relating to [INPAG Exposure Draft 3](#)

Comments are most helpful if they:

- a) Address the question asked;
- b) Contain a clear explanation to support the response provided, whether this is agreeing or otherwise with any proposals made;
- c) Propose alternatives for consideration, where responses are not in agreement with the proposal made;
- d) Specify the INPAG paragraphs to which any comments relate; and
- e) Identify any wording in the proposals that might not be clear because of how they translate.

The text boxes will expand as required. There is no size limit. There are 11 question areas, according to the various sections in INPAG. You do not need to answer all questions and can choose to answer as many or as few as you wish. You may comment on any aspect of Exposure Draft, not just the specific matters identified. General comments should be added at the end of this document.

Responses must be received by **16 September 2024 and must be in English**.

Responses can be submitted to ifr4npo@cipfa.org or through the website at www.ifr4npo.org/have-your-say

Specific Matters for Comment

Question 1: Fund accounting

INPAG Section 36 sets out the characteristics of a fund for the purposes of INPAG and whether a fund is presented in the financial statements as being with or without restrictions. A fund is presented as with restrictions where the use of resources is limited to a specific purpose or activity as a consequence of externally imposed legal or equivalent arrangements or where a fund is established for a fundraising campaign with an externally communicated commitment on the specific use for the funds. The guidance requires that the income, expenses, assets and liabilities associated with a fund are recorded. New disclosures are required for fund balances and movements in the year. INPAG Section 5 has been amended to remove the requirement to disclose funds with and without restrictions on the face of the Statement of Income and Expenses.

1 Fund accounting	References	Response
a) Do you agree that the ED1 requirement to present funds with restrictions and funds without restrictions on the face of the Statement of Income and Expenses should be removed? If not, why not?	G5.3, AG5.4	I agree
b) Do you agree that the guidance in Section 36 will ensure that material funds can be identified? If not, what changes would you propose? Is there a risk that funds are not identified?	G36.3–G36.4, Figure AG36.1	I agree
c) Do you agree that income, expenses, assets and liabilities are tracked for each fund? What are the costs and benefits? What, if anything, would you change and why? What are the practical considerations?	G36.5, G36.7, AG36.3	Some participants fully agree that income, expenses, assets and liabilities are tracked for each fund. However, majority of the participants indicated that the segregation of assets and liabilities by funds will have a practical complication mainly for small funds and will increase an accounting burden. Income and expense by fund is sufficient and the balance is often represented by cash and advances.
d) Do you agree with the two criteria for a fund to be a fund with restrictions? If not, what would you change and why?	G36.9	I agree

1 Fund accounting	References	Response
e) In order to provide transparency about the finances of an individual fund, do you agree that all the expenses should be charged against a fund with restrictions even if there are currently insufficient resources to cover these, or specific costs are not eligible under a grant arrangement? If not, what alternative would you propose and why?	G36.11–G36.12	Some participants agree that all costs should be allocated, even if there are insufficient funds to cover the allocated costs. They justify this by stating that users of the financial information, including donors, should be aware of the total cost of implementing the project including the shared costs resulting from specific project activities. However, others disagree, arguing that it will mislead users and create the impression that the NPO is not complying with the covenant entered into with the donor to spend within the approved budget. This approach could allow the NPO to allocate costs of inefficiencies (such as renting unnecessary office spaces, expensive facilities, or operating with limited capacity) while the shared costs could have been used for other projects or activities if the NPO had strived to bring in more activities during the period.
f) Do you agree with the NPO funds disclosures requirements? If not, what would you change and why?	G36.21–G36.23	I agree Some raised their concern that Requirements should not be the same across the board. The range of NPOs in terms of financial capacity or turnover varies significantly. Imposing more requirements for small NPOs will be a burden. It has been indicated that each jurisdiction should craft a threshold by turnover (or a mix of other parameters such as number of employees) to set a minimum requirement to small and medium NPOs, and full disclosure for large NPOs.
g) Do the Illustrative examples demonstrate the key concepts in fund accounting? If not, what would you change and why?	Implementation Guidance – Section 36	I agree

Question 2: Presentation of expenses, fundraising costs and related disclosures

INPAG Section 24 Part II provides guidance on the presentation of expenses. It permits an expense analysis by nature, by function, or a mixture of the two. It includes a rebuttable presumption that an analysis by nature is used unless another analysis provides information that is more relevant and reliable. Guidance is provided on the allocation and aggregation of costs where a functional or mixed presentation is used, which will be useful for calculating support costs. INPAG Section 24 Part III provides a definition of fundraising activities and identifies three categories to be disclosed: activities to generate donations, gifts and similar transfers; commercial and trading activities; and investment management. There is a pragmatic exception where costs need to be split between fundraising and other activities.

INPAG Section 33 on related party disclosures draws attention to the possibility that an NPO's financial position and/or its surplus or deficit have been affected by the existence of related parties. Disclosure is required of personnel compensation made to governing body members as well as key management personnel. INPAG Section 28 has been updated to include the disclosure of short term employee related benefits.

2 Presentation of expenses	References	Response
a) Do you agree that there is a rebuttable presumption that a by nature classification of expenses is used unless this doesn't provide the most relevant and reliable information to the users of the financial statements? If not, why not?	G24.43–G24.47, AG24.45–AG24.47	I agree
b) Do you agree that the rationale for using a classification of expenses other than by nature should be disclosed? If not, why not?	G24.44	Most of them agree and few of them raised their concern, indicating that report by function or even by output make sense for many NPOs than presentation by nature.
c) Do you agree that where a functional or mixed presentation of expenses is used, a narrative description of the types of expenses incurred on each function line item is sufficient and that a requirement for these to be quantified is not necessary? If not, why not?	G24.46, AG24.48	Most of them agree Few indicated that the listing of expense items by nature doesn't help unless it is represented financially. They suggested the complete removal of the disclosure by nature, and rather, it will be useful, if information is provided by output.
d) Do you agree with the expense disclosure requirements? If not, what would you change and why?	G24.50–G24.57, G33.7–G33.11, G28.38	I agree
e) Do you agree with the description of direct costs, shared costs and support costs and that these allow the full cost of an activity to be identified? If not, why not?	G24.48–G24.49	I agree
f) Do you agree that commercial and trading activities that are for the purposes of fundraising and investment management costs associated with a	G24.64–G24.66	I agree

2 Presentation of expenses	References	Response
fund whose purpose is to generate future returns are included as fundraising activities? If not, why not?		
g) Do you agree with the pragmatic exception that fundraising costs do not need to be split from other costs where the cost of doing so would exceed the information benefit to stakeholders? If not, what would you change and why?	G24.72	I agree
h) Do you agree that the costs for each of the three categories of fundraising activity should be separately disclosed and presented gross? If not, what should be disclosed and why?	G24.74	I agree
i) Do you agree that grants or donations made in arm's-length transactions with governing body members and any services they receive on the same terms as other eligible service recipients need not be disclosed as a related party transaction? If not, why not?	G33.18 a)– G33.18 b)	I agree

Question 3: Supplementary information and INPAG Practice Guide 1 – Supplementary statements

INPAG Section 37 requires additional information to be disclosed when an NPO produces one or more supplementary statements using INPAG Practice Guide 1. NPOs may choose to prepare a single note to meet the requirements or disclose only the additional information. INPAG Practice Guide 1 – Supplementary Statements enables the presentation of key financial information about a specified activity, project or grant, in a prescribed statement format, which can be included as an Annex to the financial statements. The Practice Guide provides templates for different variants of reporting that includes comparison to budget, multiple grants, multiple time periods and different currencies.

3 INPAG Practice Guide 1	References	Response
a) Do you agree that the requirements of Section 37 do not have to be met unless Supplementary statements are prepared in accordance with INPAG Practice Guide 1- Supplementary statements? If not, why not?	G37.1-G37.2	agree
b) Do you agree that a whole of NPO supplementary statement need not be presented if the additional information is already in the financial statements and/or notes? If not, why not?	G37.3, G37.10-G37.12	
c) Do you agree with the format of the Supplementary statement? If not, what would you change and why?	SS.5	
d) Do you agree with the options for the disclosure of capital and inventory related costs? If not, what would you change and why?	SS.18-SS.21	
e) Do you agree that the Supplementary statements are not part of the general purpose financial report but can be published as an annex? If not, why not?	SS.25-SS.26	

Question 4: Illustrative financial statements

INPAG Implementation Guidance Annex A includes Illustrative financial statements. The templates have been populated with data to cover the most common NPO transactions. The illustrative financial statements focus on new INPAG requirements.

4 Illustrative financial statements	References	Response
a) Do you agree that the illustrative financial statements cover the transactions that are prevalent for NPOs? If not, which prevalent transactions are	Illustrative financial statements	Most of the participants agree

missing and why do these need to be covered?		
--	--	--

Question 5: Equity

INPAG Section 2 provides the concepts and principles on which INPAG is based. Amendments are proposed to equity and net assets as a result of feedback. Net assets is a new element defined as the residual amount of an NPO's assets and liabilities available to achieve its objectives. The term equity claim is introduced to describe equity type instruments, which is a subset of net assets. INPAG Section 22 has the principles for classifying financial instruments as either liabilities or equity claims. As INPAG does not use the term equity, consequential amendments reflect the expected nature of NPO equity claims.

5 Equity	References	Response
a) Do you agree with the revised description of net assets and its inclusion as an element? If not, what would you change and why?	G2.73	I agree
b) Do you agree with the use of the term equity claims in Sections 2 and 22 and that equity claims are a subset of net assets? If not, what would you change and why?	G2.74, AG2.6, AG2.7, Section 22	
c) Do you agree that the paragraphs relating to the sale of options, rights and warrants, extinguishing financial liabilities with equity claim instruments and treasury shares are removed from and that the paragraphs relating to capitalisation or bonus issues of shares and share splits and convertible debt or similar compound financial instruments are retained? If not, why not?	G22.12–G22.15	

Question 6: Transition to INPAG

INPAG Section 38 describes the requirements for recognising and measuring assets and liabilities to create a Statement of Financial Position when INPAG is adopted for the first time. Accumulated funds that contain historic surpluses and deficits must be split between funds with restrictions and funds without restrictions. Compliance with just the financial statements can be asserted ahead of full compliance. The narrative reporting requirements must be completed within a two-year period to be able to continue to express compliance with INPAG.

6 Transition to INPAG	References	Response
a) Do you agree with the pragmatic approaches proposed for the first time adoption of INPAG? If not, what are the practical challenges that are likely to be experienced?	G38.11–G38.12	Practical challenges in developing countries is the lack of sufficient number of professional to support the conversion and also the challenge for small NPOs in investing for conversion supports. A serious of training programs, and consultation required, incentives should come from donors in harmonizing their reporting requirements so that NPOs will be encouraged to adopt.
b) Do you agree that compliance with INPAG can be expressed in relation to the financial statements only for a two-year transitional period? If not, why not?	G38.5–G38.6	Generally, the team agree with the need a two year transition timeline. However, due to the cost and time involves in valuation of assets, and the lack of sufficient number of professionals and the cost of conversion will lead to a serious burden for NPOs, if adoption of INPAG is immediate. Hence, the regulator body, in our case AABE, should design a road map how the adoption of INPAG should proceed.

Question 7: Application of fair value

INPAG Section 12 describes how to measure assets and liabilities using fair value. The use of fair value to determine the deemed cost of donated assets is reflected in INPAG Section 16, for investments in land or buildings that are held to earn rentals or for their capital appreciation, INPAG Section 17, for property, plant and equipment, including capitalisation and depreciation and INPAG Section 18, for identifiable non-monetary assets that does not have a physical substance (eg licenses). The cost model in Section 17 applies to all tangible assets that are held for use in the activities of the NPO and are expected to be used during more than one period as well as to property held to deliver an NPO's missional objectives, eg social housing. There are no exceptions for assets that are funded by grants or donations.

7 Application of fair value	References	Responses
a) Is the Section 12 application guidance that sets out how the fair value hierarchy applies to NPO assets and liabilities and the illustrative examples of fair valuing donations in-kind useful? If not, how could it be improved?	AG12.1–AG12.11	Most of them agree, and indicated that the best estimate of management should be considered in valuation; this is practical for developing countries where getting level one and level two data for fair value is often a challenge

7 Application of fair value	References	Responses
b) Do you agree with the additional guidance provided for donated: <ul style="list-style-type: none"> i) investment property (Section 16)? ii) property, plant and equipment (Section 17)? iii) intangible assets (Section 18)? If not, why not?	G16.7 G17.10 G18.14	Most of them agree. It is recommended that the option of use of replacement cost to be considered.

Question 8: Impairments

INPAG Section 27 requires that the carrying amount of an asset is reduced to the recoverable amount, where its carrying amount is higher than its recoverable amount. The new measurement base for inventories held for distribution at no or nominal cost has been added. The Section refers to an NPO's 'operating units' to encompass assets that are held for missional purposes rather than purely cash-generation.

8 Impairments	References	Responses
a) Do you agree that inventory held for distribution is measured for impairment using cost adjusted for any loss of service potential? If not, what would you change and why?	G27.2-G27.4	Most of them agree, but a materiality threshold is very important as determination of impairment loss is not an easy exercise for the NPOs.
b) Do you agree that the term operating unit better reflects the nature of an NPO's operations and with its proposed definition? If not, what alternative term would you use and why?	G27.8	
c) Do you agree that impairments to assets that form an operating unit can take account of other economic benefits and service potential? If not, what would you change and why?	G27.15	

Question 9: Combinations of entities

INPAG Section 19 applies to the combining of entities, (including NPOs) that meet the definition of a business. The term business has been broadened to include the types of activities carried out by NPOs. It provides guidance on the recognition and measurement of the assets and liabilities acquired in a combination and includes a simplification where there is a combination of two NPOs that both have positive net assets.

9 Combinations of entities	References	Responses
a) Do you agree that the term 'business' can be applied by NPOs when taken alongside the amendments proposed, (including the expansion of examples of control)? If not, why not? What practical issues are experienced?	G19.4, G19.5, AG19.1–AG19.2	
b) Do you agree with the proposed exemption for two NPOs that have net assets and that it should not apply where one NPO has net liabilities? If not, describe the practical and accounting issues that arise?	G19.24	

Question 10: Other topics in Exposure Draft 3

INPAG Section 14 and INPAG Section 15 provide guidance on accounting for associates and joint arrangements in consolidated and separate financial statements respectively. INPAG Section 20 covers the accounting for all leases and INPAG Section 34 provides guidance on three types of specialised activities: agriculture, extractive activities and service concessions. None of these Sections have been amended other than for terminology changes.

10 Other topics in ED3	References	Response
a) Do you agree that no further alignment changes are needed to: i) Section 14 Investment in associates? ii) Section 15 Joint arrangements? iii) Section 20 Leases? If not, why not?	Section 14 Section 15 Section 20	
b) Is any of the guidance in Section 34 needed by NPOs? If yes, which elements of the section are needed and why?	Section 34	

Question 11: IFRS for SMEs Addendum

INPAG Section 7 and INPAG Section 30 (published in ED1 and ED2 respectively) have been updated as a consequence of additional text proposed in the Addendum to the draft Third edition of the IFRS for SMEs Accounting Standard issued by the International Accounting Standards Board on 28 March 2024. There is additional text on supplier finance arrangements in Section 7 and lack of exchangeability in Section 30.

11 Addendum	References	Responses
a) Do you agree that the guidance for supplier finance arrangements is useful and relevant to NPOs? If not, what would you change and why?	G7.20A– G7.20B,	
b) Do you agree that the guidance on lack of exchangeability is useful and relevant to NPOs? If not, what would you change and why?	G30.5A, G30- 31–32, AG30.26– AG30.43	

General Feedback

Please share any other comments that you wish to raise on Exposure Draft 3. When providing additional feedback please reference the paragraph numbers, where possible and provide a short explanation to support your comments.

Reference	Comment
	<ul style="list-style-type: none"> ○ Supplementary information to include a reconciliation between financial performance report and an activity performance report. ○ The success of INPAG adoption is highly dependent on the extent that donors will be happy with the expanded information available in INPAG based financial reports + the supplementary report. The next step is the harmonization of donor reporting requirements, in a way that duplication of reporting requirement will discourage NPOs from adopting INPAG. In short incentive has to come from donor and national regulators, and the burden of having duplicate audits (project audit + entity audit) need to be minimized or avoided. ○ We have a national requirement where NPOs to present their revenue and expense reports by program and administration expenditure and to show that they are complying to the maximum ceiling of 20% admin costs. ○ All NPOs are not the same and the national regulator need to set a threshold when application of INPAG to be a mandator to adopt./
